About Me

The growth of the IT industry has fuelled my ambition to build a career in information technology. My passion for securing and managing IT systems aligns with this evolving field. I am seeking an entry-level role or internship where I can apply my skills, contribute to meaningful projects and continue developing professionally. I am reliable, adaptable, eager to grow and ready to take on new challenges and add value to your team.

Experience

Court Monitor, RUSH Extreme Trampoline Park

09/2024 – Present

- Responded to incidents and equipment issues, performing basic troubleshooting and escalating technical or facility-related problems according to reporting protocols.
- Maintained accurate incident reports and communicated clearly with management and team members to ensure efficient resolution and operational continuity.
- Managed high-occupancy periods by prioritizing multiple responsibilities simultaneously, maintaining safety and operational flow under pressure.
- Collaborated with team members during events and peak periods to ensure smooth operations and consistent service delivery.

Education

Diploma in Information Technology (Cybersecurity Specialization), Belgium Campus ITversity

09/2024 – Present

Weighted Average: 63.9% | 154 Credits Achieved

- Relevant coursework: Networking Development, Cybersecurity Fundamentals, Programming Principles, Web Programming, Database Concepts & Development, Systems Design, Project Management, Statistics, Business Communication.
